## FEATURE SPOTLIGHT

### HD 720p video at up to 30 frames per second

Experience face-to-face professional video conferencing with fluid, HD video.

### True 16:9 widescreen with a 78-degree field of view

Provides more video frame space than an embedded webcam, allowing for more life-like calls.

### Dual stereo microphones

Enjoy clear conversations in lifelike, stereo wideband audio.

### Carl Zeiss® glass lens

Enjoy razor-sharp images even when showing documents up-close, a whiteboard drawing or a demo.

### Logitech RightLight™ 2 technology and autofocus

Webcam intelligently adjusts to improve visual quality in low light at multiple distances.

### Optimized for Microsoft® Lync™ and Skype, Cisco® compatible and certified for Avistar and Avaya; compatible with most UC and web conferencing applications

True plug and play with your favorite UC platforms and video apps on either PC or Mac.

### Supports silent installation

You can easily deploy and manage the installation of webcams throughout your company with command-line, silent installation.

### Plug-and-play setup

Setup is fast and easy. Just plug it in and you're ready to start collaborating.
