

# MOBILE STUDIO

Create your interactive videos anywhere.

## CAPTURE

## EDIT

## SHARE

your presentations automatically. Speaker and slides are both recorded in full quality.

your content with a few gestures to trim and customise appearance.

your videos on your website, intranet, YouTube channel, USB media or MediaServer...

## APPLICATIONS

Capture lectures, conferences and events in any location using the Mobile Studio. It can be transported from room to room in minimal time.

### EDUCATION

- Empower teachers with the autonomy to create content directly compatible with your LMS.
- Transform any classroom into an automated recording studio.
- Easily record videos and share them with students to flip the classroom.
- Stream lectures with low latency from one room to another (local streaming).

### CORPORATE

- Engage with your collaborators, clients, partners and shareholders through live and interactive webcasts.
- Capture and share your organisation's key events such as seminars, conferences, launches, etc.
- Easily and quickly create eLearning modules that are ready to share within your learning platform.
- Archive and capitalise on knowledge to share it with new employees.

# Why create content with the Mobile Studio ?

## ALL-IN-ONE

A professional but easy-to-use system that lets you create engaging content anywhere.

## AUTOMATED

A single button and the Mobile Studio takes over: capture, indexing, format conversion and publishing.

## CUSTOMISED

Your content's branding (logo, intro clip, etc.) and production (dynamic transitions) are automated.

## MORE THAN VIDEO, RICH MEDIA

### INTERACTIVE

Navigate by keywords, chapters and slides to precise sequences

### INFORMATIVE

View the presenter and slides in full quality

### ENGAGING

Maintain your audience's attention with dynamic content
